### LOCAL NEWS.

Mr Joe Whitelock has moved back to his farm at Golden Spike.

A meeting of Stony Plain Local U. F. A. is called for Saturday next, to be held in the Royal Parlor.

Stony Plainers are going to have the pleasure tomorrow (Friday) evening of a visit from the Heatherdown Dramatic Club. This organization is playing the comedy "Blundering Billy," and have produced the play at several places within the past few weeks. At their own hall, at Heatherdown, Mon. Feb. 28, the hall was packed. Wudel's hall should be crowded.

Mr Rotlie is making an effort this week to bring his truck home. On returning from a trip to the City one evening last week, along the Baseline, the vehicle got stuck in a drift near Winterburn Hall.

DIED—In Stony Plain, on Monday March 7th, Stewart, the 16 months old son of Mr and Mrs John A. Willie. The funeral took place on Tuesday March 8, to the Glory Hills cemetery.

M. M. Meeklenburg, the well known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday, March 28th. See him and see good.

On March 4th 11 members of Stony Plain W.I.G.C. met at the home of Eleanor Umbach to hold their semi-monthly meeting. Meeting opened by singing Let the Rest of the World Go By and repeating the Club creed. Arrangements were made for a Court Whist party, to be held Mar. 18, in Town hall. Mrs Woods the supervisor, gave a few suggestions on the different classes in the competitions at Banff in July. The girls are keenly interested in this and are trying for the scholarship to be awarded by Hon George Hoadley. The W. I. members as well as mothers of club members were guests. The girls had a debate "Which would make the better husband, an industrious crank or a good natured slouch." Lilly Comisarow and Esther Wolfe taking the affirmative and Thy Umbach and Mary Robbins the negative. The judges Mrs J. Smith and Mrs Kowalsky awarded the decision to the latter. The winners were presented with a bouquet of roses. The Roll Call proved to be very interesting the Club members as well as their guests giving the description of their Dream Man. Dainty refreshments were served by the Misses E. Umbach and L. Robbins.

Branch Lines in the West

The next few years will witness great activity in branch lines railway construction in Western Canada, judging by the Canadian National Railways programme covering the next three years, recently outlined to Parliament by Hon. Charles A. Dunning, Minister of Railways, coupled with the information that has been given that the Canadian Pacific also plans extensive branch lines building in the West, although, at the time of writing, the details of their programme have not been made public.

Canada is well-equipped with main lines of railway; so well equipped in fact that the statement is frequently made that the Dominion has overbuilt in this respect. These main lines run east and west, carrying the products of the West to Ontario, Quebec, the Atlantic and the Pacific coast, and bringing to the prairies the manufactured goods of the east, and the fruit, fish, lumber of British Columbia, as well as the imports coming through our seaport cities.

But in order to make these long main lines profitable from an operating standpoint, there must be a veritable network of branch lines to feed them. It is in the West that these feeders are most needed, and where the possibilities for securing new and larger traffic is most promising.

There is another lack in the West in the railway situation as it now exists, and that is in the matter of lines running north and south connecting the several east and west main lines. Branch line construction in more recent years has been planned so as to not only provide feeders to the main lines, but through a gradual linking up of these branches bring about connecting lines running in a generally north and south direction.

Branch line construction in the West must, in the future, have still another main objective in mind. The Hudson Bay Railway is being pushed to completion, and by the end of the year steel will almost if not quite reach to the Bay terminal. By the West, this railway is regarded as a main line, a direct Western route to the markets of Europe. If this route proves to be what its advocates claim for it, then in the not too distant future millions of bushels of Western grain will move north which must now find an outlet either to the Atlantic or the Pacific.

Our existing network of main and branch lines must be provided with direct connection with the Hudson Bay Railway. Its success requires this, and the people demand it. It is in this that they may enjoy maximum benefits which the new outlet should provide.

As the southern terminus of the Hudson Bay Railway is in Saskatchewan, it naturally follows that the initial work of providing direct connection with it must be done in that Province through the building of certain branches which will have the effect of linking up existing lines with the Bay road. The building of such lines is included in the C.N.R. programme recently announced. It would be a mistake, however, to regard these as purely Saskatchewan branches. They are just as important and as essential to Manitoba and Alberta as they are to the Province in which they must actually be built.

The construction of these connecting branches may also prove an important factor in effecting a complete change in transportation matters and development in this western country. Lacking any northern outlet to the sea, these products of Western Canada which do not go east to the Atlantic or west to the Pacific, are forced to move to the south, that is, to the United States, to Minneapolis, Chicago, and thence to Buffalo or New York.

With the opening of the Hudson Bay outlet, and the connecting of our existing railway systems with the road to the north, not only will our own western products find a shorter outlet, but, instead of Canada shipping to the south, products of the northwestern states will, because of these direct connections and shorter haul, move northward through Canada, providing additional traffic for our railways, and adding to the volume of business over the Hudson Bay Railway.

The appropriation of over \$5,000,000 for construction work on the Hudson Bay Railway, and of an even larger sum to be expended by the Canadian National in the next three years on branch lines in Saskatchewan to connect existing lines with the Bay road, and to provide direct connection for Manitoba, Southern Saskatchewan, and the northwestern states with the Bay, marks a new era in railway transportation in the West and in the development of the whole prairie section of the Dominion.

## Children Cry for

**Fletcher's CASTORIA**

MOTHER—Fletcher's Castoria is especially prepared to relieve infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Absolutely Harmless—No Opium. Physicians everywhere recommend it.

### To Increase Egg Production

Hehe Lay More Eggs With the Use of Light

The use of lights with the laying flock increases the winter and yearly egg production. Fall laying can be kept up by using lights from September 1 to November 1. It is possible by using lights to carry the early hatched pullets through their first production period with much less moulting than when lights are not used. Slow maturing pullets will mature faster under lights. Property installed lights will increase in the labor income from the birds for the year.

### Torture Jewish Boy

Anti-Semitic Wave Sweeps the Soviet Union

Three members of the Communist Party have been arrested at Ivanovo-Voznesensk, near Moscow, on charges of having tortured a Jewish boy named Bayrach, employed in a factory with them. They are alleged to have applied electric wires to the boy and to have nearly strangled him on one occasion.

The case has revealed a wave of anti-Semitism throughout the Soviet Union.

### MARCH WEATHER

#### DANGEROUS TO BABY

On Account of the Very Sudden Changes in Temperature

Our Canadian March weather—one day bright, but sleepy, the next blustery and cold—is extremely hard on children. "Conditions make it necessary for the mother to keep the little ones indoors. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds and to keep the baby well all the better, bright days come along, a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach sweet and his bowels working regularly.

Baby's Own Tablets are a mild but thorough laxative which never fail to regulate the stomach and bowels and thus relieve colic and simple fevers and keep baby fit. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Indians Are Good Farmers

Indians of Prairie Provinces Produced One Million Bushels of Grain Last Year

The Indians of the three Prairie Provinces—Manitoba, Saskatchewan and Alberta—last season produced in round figures one million bushels of grain, of which about half, or 488,000 bushels, was wheat, according to a recent Government report. There are about 25,000 Indians in the area in question and the land reserved for their use includes some of the most fertile soil in the Prairie. They had 97,000 acres under cultivation in 1926. They own about 25,000 head of cattle and 35,000 horses of a good type.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

Building Boom in Winnipeg  
Winnipeg is on the threshold of one of the greatest home-building years of its history, a summary of plans of local contractors reveals. Plans are at ready drawn up for 148 homes, which will cost \$1,000,000, construction of which will commence as soon as the frost is out of the ground.

Internally and Externally it is Good.—The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints as well as externally. For sore throat, croup, whooping cough, diphtheria in the chest, colds and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in always having it at hand.

An American electrician has discovered that lightning wanders around a good deal in space. We are more concerned with what it does when it comes to land.

For sale everywhere—Minard's Liment.

## "Should be in every home" Says Mme. Villemaire

Three years of stomach and kidney disorders wrecked her health. Now fully recovered and feeling splendid, she thanks Tanlac

Mme. Eliza Villemaire lives at 432 St. Patrick Street, Ottawa. She is ruddy and robust, showing no signs of the distressing ordeal she went through for three years. "No words can express what I suffered," she said recently. "At times I thought my back must break, and I could not even stoop over to set the table."

"My stomach was just as bad, for food would lie there like a lump of lead. I used to float terribly, and at times could hardly catch my breath. Nervousness kept me awake half the night. I tried many remedies and treatments but though I spent a small fortune on them, nothing seemed to help me."

"If only with I had taken Tanlac when my trouble first started for it certainly would have saved me a lot of suffering. The way my troubles disappeared after taking it was almost magical. It built me up and made me a new woman. Now my kidneys never bother me, I am free from all pain and my digestion is splendid. If 52 million bottles sold."

I had my way I'd put Tanlac in every home in Canada. That's how much I think about it." Don't neglect nature's warnings. At the first sign of trouble, take Tanlac, nature's own tonic, made from roots, herbs and barks. Your druggist will get a bottle today. Over 52 million bottles sold.

### Working Women Want Change

Too Many "High-Brows" in British Parliament Opinion of Women Socialists

Many women in the Socialist and Labor movement in England, have reached the conclusion that too many "high-brows" are representing them in parliament. They point out that there are no genuine working women selected as Socialist parliamentary candidates but that women of higher social rank can make nominations quite easily. Consequently plans are under way to raise a fund of \$15,000 a year so that young women will have a better chance of competing with their more fortunate sisters in the party for parliamentary honors.

Why suffer from corns when they can be painlessly rooted out by using Holloway's Corn Remover.

The hottest flame man has been able to produce, by electricity, is estimated at 20,000 to 30,000 degrees.

There are now 31,000 miles of railway and 23 million acres of canal irrigated lands in India.

### Motoring in Alberta

All-the-year-round motoring is now planned in Alberta, a result of the fact that there is an automobile to every ten persons in the province.

IF STOMACH IS TROUBLING YOU Instantly! End Indigestion or Stomach Misery with "Pape's Diapiesin"

As soon as you eat a tablet or two of "Pape's Diapiesin" your indigestion is gone! Heavy pain, heartburn, flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

Property in the west end of London is still held on leases granted three or four centuries ago.

When a man is a little mellow he imagines that he is ripe for anything.

**EVEREADY Radio Batteries**  
—they last longer—

**100% Better Results**

Here is power in its most dynamic form—ready to meet all the varied and exacting demands of modern radio.

The superb work of Canada's foremost engineers, chemists and battery builders is sealed beneath each Eveready nameplate.

Make sure the label says "Eveready" when you buy radio batteries—insist on getting the 100% endurance that none but Evereadys can duplicate.

Your dealer has a full range of Eveready A, B and C Batteries:

Canadian National Carbon Co., Limited  
Montreal Toronto Winnipeg Vancouver

"Radio is Better With Battery Power"

Time in CKY, Winnipeg, for Eveready Program, Sunday, March 20th, April 2nd, and 11th at 9 p.m.; Saturday, March 12th and 19th, April 9th and 23rd at 11 p.m.

# Exhaustive Tests Are Made On the Comparative Merits Of Garnet and Marquis Wheat

After having conducted extensive tests on the comparative merits of Garnet and Marquis wheats, the two early maturing cereals developed within recent years, the Federal Department of Agriculture reports that "we cannot recommend Garnet as a substitute for Marquis in districts where the latter variety may be depended upon to thrive successfully." The report points out, however, that even in those districts where conditions are inimical to the proper development of Marquis wheat, it may often be profitable to the farmer to cultivate Garnet wheat in part of the area devoted to wheat.

The report points out that "from the standpoint of milling and baking qualities, Garnet undoubtedly does not rank as high as Marquis, all things considered, although it seems entitled to a place among the good milling wheats. The chief point regarding which Garnet is open to criticism is in color of the flour. This without doubt is more 'creamy' than Marquis. Since, however, bleaching and maturing processes have become so highly developed and are becoming so generally practiced, the objection of the color of Garnet would appear to be appreciably minimized."

Commenting on the results of the comparative baking tests of the two wheats, the report says that "generally speaking, the flour of Marquis absorbs a little more water than does that of Garnet and, consequently, is inclined to produce a little heavier bread yield."

Garnet wheat, however, by maturing from five to ten days earlier than Marquis, has a decided advantage in the early frost belt.

The department summarizes the result of its experiments as follows: "On the average of all tests conducted to date on the federal experimental farms and stations as well as on provincial farms Garnet outdoes Ruby quite definitely, but there does not appear to be a significant difference in yielding ability between former variety and Marquis. This statement would seem to apply pretty generally to tests conducted by farmers as well."

"On the other hand, Garnet appears capable of outyielding Marquis by a substantial margin in specified districts, notably those in which an early variety has a distinct advantage."

"Garnet matures from five to ten days earlier than Marquis and about a day ahead of Ruby. Under certain conditions the difference in maturity between Garnet and Marquis may be considerably greater than the above."

"In strength of straw Garnet appears to come between Marquis and Ruby, being slightly stronger than Ruby, but not quite so strong as Marquis. Under some conditions, however, Marquis shows distinctly greater strength."

"In tests conducted at the rust research laboratory, Winnipeg, Garnet did not display any resistance to any of the seven physiologic forms of stem rust used."

"Although this variety may not possess rust resistance, it may prove of value in rust areas by partially escaping this disease, owing to its ability to mature early."

"In the case of samples obtained from the Dominion experimental farms and stations in the prairie provinces in 1924 and 1925, Garnet weighed slightly less per measured bushel than did Marquis. On the other hand, records at the Dominion farms at Brandon, Indian Head, Lethbridge, Scott and Lacombe over a period of six to eight years, show that Garnet and Marquis averaged 62 pounds and 61.9 pounds per bushel, respectively. Where the supply of moisture is ample, Garnet appears to equal, if not to excel, Marquis in weight per bushel. Thus, over a 12 year period at Ottawa, Garnet averaged 61.4 pounds and Marquis 62.7 pounds per bushel."

Balsam wood weighs less than hulk as much as cork, and as a heat insulator is superior to cork.

Large beetles, found recently in Coats River, emit light sufficient to illuminate a large room.

W. N. U. 1671

## Advocates More Sheep

### Canada Should Produce a Greater Share of Its Own Wool

Advocating more sheep on the smaller farms in Canada the Dominion Livestock Commissioner, speaking at the annual meeting of the Ontario Sheep Breeders' Association, stated that farmers need not be afraid of extending their sheep holdings. The Dominion imports \$46,000,000 worth of woolen goods while it produces less than \$5,000,000 worth of wool. There was no reason, he urged, why Canada could not produce a greater share of its own wool of which a few of the finer grades, Canada can manufacture cloth largely from her own raw material, which will compare favorably with anything in the world.

## Manitoba Tax Collections

Increases Shown for 1926 of Over Half a Million Over Previous Year  
Provincial collections under the Manitoba Tax Commission for the calendar year 1926 exceeded \$3,332,000, or an increase of more than \$500,000 over the figures for the previous year, according to the report of the Commission tabled in the Legislature by the Hon. D. L. McLeod. These figures are thought to point to another surplus to be announced by Premier John Bracken at the close of the fiscal year, ending April 30th. Virtually all the major revenue producers show increased returns as compared with 1925.

The Cardigan Dress is Modish

Exceedingly smart is the attractive cardigan dress shown here, and a style suitable for both the miss and matron. The two-piece skirt, having inverted plaits in front and back, is joined to a dart-fitted under-bodice. The jacket has a facing and collar in one, a vent, and smart patch pockets. The long dart-fitted sleeves are finished with bands, and a trim belt fastens in front. No. 1526 is for ladies and misses and is fit sizes 16, 18 years, 35, 40 and 42 inches bust. View A size 38 requires 4 1/2 yards 35 inch material, or 3 yards 54-inch. View B size 38 requires 2 1/2 yards 35-inch plaid material, and 3 1/2 yards plaid; 1 1/2 yards 36-inch material for under-bodice. Price 20 cents the pattern. The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

## Airplanes Saving Forests

Pilots Not Only Spot Fires But Help Conquer Them

"Every year," said Hon. William Finlayson, Minister of Lands and Forests in the Legislature, "we have the same number of fires starting from the bush. Now we can't control the idiot who throws a burning cigarette away, but we can spot a fire when it is still small and prevent it from spreading."

How is it done? Ask the "Falcon," for instance, says Mr. Finlayson.

On July 4, 1926, at 4 o'clock in the morning, forest patrol machine "Falcon" with Pilot Russell, and Air Engineer Chessman, spotted a fire in valuable spruce timber in unsurveyed territory around Clearwater Lake, far out of the beaten path of the forest fire ranger. What happened?

Well, the "Falcon" flew direct to its base at Pine Ridge, 45 miles distant, for assistance. It flew the course 13 times that day putting in more than 11 flying hours. To the scene of the fire it transported ten men, 1,550 pounds of food, innumerable blankets, 200 feet of hose, extra pumps, two canoes and other materials with which to prevent the spread of the conflagration.

Furthermore, Pilot Ruse also flew his "beat" to Lac Seul to bring in three extra fire-fighters. At 7 o'clock the same night the fire was out, with less than an acre of timber consumed. "This," said Mr. Finlayson, "is only one of a half-dozen stories of this kind that I might relate. Our planes nowadays, not only spot fires, but conquer them."

Ontario, according to figures supplied by the Ministry, spends approximately \$1,000,000 yearly on her forest fire protection.

Is it worth it? Well, in 1926, there were 106,000 less acres of timber destroyed by fire than there were in 1925, although the Province reported 1,195 fires — only 50 fewer than the previous year. There's a reason for that, unquestionably.

"And the 'Falcon,' for instance, can tell you," says Mr. Finlayson.

## Developing Horse Power

Five Million Horse-Power to be Developed in Western Ontario and Northern Manitoba

Applications for permits to develop hydro power in Western Ontario and Northern Manitoba are on scale that represents an ultimate volume of 5,000,000 horse-power, indicating the industrial growth that the territory is achieving. These range all the way from the Lake of the Woods country to the basin of the Nelson River, and relate to pulp and paper mills, mining plants, civil hydro promotion and transportation projects.

## Paid \$3,200 for Penny Book

A book which once sold for one English penny, brought \$3,200 at auction in New York. The volume was a first edition of Edward Fitzgerald's "Rubaiyat of Omar Khayyam," published 1839.

## Beauty and the Beast in the Rockies

Miss Mary Cross, of Calgary, Queen of the Carnival recently held at Banff, certainly knows how to handle a cayuse, and when it comes to packing a load on one has little to learn from Bill Potts or any other of the famous guides that abound in that section of the Rockies. The cayuse also appears to be enjoying the sport since he is taking a peek at the fair lady who is stringing him along. Miss Cross was one of the attractions at the Big Winter show at Banff, where not only winter sports, but some much more intimately associated with summer, such as open air swimming, was indulged in, thanks to the warm sulphur Springs of that favored locality. The Carnival was a record success in all ways this year.

# Carbonized Coal May Prove To Be Solution Of Canada's Fuel Problem

## Market for Bacon

Strong Competition Developing in European Countries in Supplying Bacon for British Market

The December review of the live stock situation by the Markets Division of the Dominion Live Stock Branch is one deserving of more than ordinary attention. It is to some extent a commentary on the year's trading. With British industry in more of a settled state than it has been for many months the hope is expressed of an improved export trade.

The most significant remarks are regarding the bacon market. The supply of hogs, the review says, was short of requirements and producers consequently found the outlet most remunerative. No very material increase in production is in sight, outlines the review, and it is hoped that the Canadian producer will see to it that supplies are brought back to more liberal volume, with the strict provision that there is a very marked increase in the volume and percentage of select stock. The reason for this advice is found in the statement that countries in Europe other than Denmark are developing a bacon trade with Great Britain and are improving the quality along with the volume.

The comments in the review of the bacon trade closed with the following sentence, which well merits extra consideration: "Our place in the British market can only be maintained on the basis of steady supply of good dimensions, but along with this the product must be of an increasingly improved quality so that we may successfully hold our own against the improving quality of the competitive product."

In 1926 the supply of select bacon hogs increased in Alberta and Manitoba but showed a falling away in the totals for the whole of Canada in 1926 being 144,669, and in 1925, 164,581.

## Idle Lands in Manitoba

Plenty of Land Accessible to Railways Available for Settlement

There are immediate settlement opportunities in Manitoba for 1,425 families, according to Prof. R. W. Murchie, speaking at the convention of the Manitoba Agricultural Societies. These lie in lands at present unused, accessible to railways, schools, churches and other modern conveniences. Altogether, he stated, there are approximately 9,500,000 acres of unused lands in the province, most of it being yet without the aforementioned facilities.

Fools occasionally find opportunities, but wise men make them.

The Ottawa Citizen says: "Application will shortly be made to parliament for a federal charter for a three million dollar corporation for the operation in Canada of low temperature carbonization processes of Canadian slack coal. This is a process which has been made commercially successful in the old country but will be new in Canada. It is claimed by the promoters that a new and definite contribution toward a solution of Canada's fuel problem will be made by this process."

"According to one of Canada's fuel experts, the carbonized coal produced from slack coal by the new process will be a fuel equal to best anthracite at present placed on the Canadian market."

"It will be smokeless and it is claimed that \$12 a ton will be the maximum cost to the consumer, delivered into bins in private homes. Oil and gases as by-products of the process will provide source of income to the corporation."

"The process of low temperature carbonization converts all types of bituminous coals into smokeless fuels, and both Nova Scotia and Alberta coals can be successfully treated. The new product will be given a special name, which at present is being kept secret."

"Plans are practically complete for the construction of two 1,000 tons per day plants in Western Ontario, and one in Ottawa of similar capacity, as a beginning. These plants will be operated by subsidiary companies. Steps are being taken also for the organization of similar subsidiary companies in Montreal and Quebec for similar plants."

Morgan J. O'Brien, prominent in political circles of Carleton County, which is in this district, is named by The Citizen as head of the syndicate seeking the federal charter.

## Fox Farming Flourishes

45,000 Foxes Imported and Tattooed for Registration Purposes

During the inspection season which lasted from October 1st to January, about 45,000 foxes were inspected and tattooed for registration purposes, according to the annual report of the Dominion Department of Agriculture. The pup crop was an average one and the prices for the foxes were reported as higher than those of the previous year. As usual, thousands of foxes were exported to the United States and in addition a number of European countries came to Canada for foundation stock, including Germany, France, Russia, Norway and Great Britain. Norway purchased 500 pairs and Russia gave some of her famous sable in exchange for silver foxes. Having established a market in Europe, fox breeders are looking forward to a good trade for some years to come.

## Port Arthur Elevators

Now 34 Elevators in the Twin Cities at the Head of the Lakes

Additions to three grain storage units at Port Arthur, increasing capacity by 2,500,000 bushels, for which contracts have been let, will give elevators at this point a total storage capacity of 22,750,000 bushels in the fourteen piers. In the Twin Cities there are 34 elevators with a present capacity of 63,850,000 and the additions will bring this to 66,450,000 bushels, or nearly 10,000,000 more than St. Paul-Minneapolis, which now has 67 elevators. It is understood that the additions will be completed in time to handle the 1927 fall crop of grain.

## Pure Bred Stock

In the last ten years pure-bred hogs have increased fifty per cent. in Canada and purebred cattle, 39 per cent, according to Hon. John S. Martin, Ontario Minister of Agriculture. The value of Canadian livestock, he said, is \$750,000,000, a third of which is owned in Ontario. A like improvement is seen in the case of sheep and hogs.

A formula has been recently discovered, by which a factory in Bethlehem makes what is said to be practically unbreakable glass.

**WORLD HAPPENINGS BRIEFLY TOLD**

The French cabinet has approved the tentative text of the Franco-American Provisional debt payment agreement.

Steel rails worth \$200,000, imported from continental steel firms, have been condemned as useless by South African railway experts.

The cost of the Parliamentary committee which investigated the customs department at the 1926 session was \$127,069.67, according to a return tabled in the House of Commons.

It is the intention of the Prince of Wales to stock five or six farms, his new purchase near Nottingham, with Shorthorn cattle, a breed in which he is particularly interested.

A tramp in Christchurch, Hampshire, England, was sentenced to a day's imprisonment for begging, a bucket of hot water. It is no offense to beg cold water, but hot water is a misdemeanor.

Women of Japan are in the midst of a brisk campaign to save a sea (a day about a half-cent) in paying the Empire's foreign debt. Already considerable money has been deposited and the promoters hope to obtain a considerable sum.

**COSTIVE BOWELS, HEADACHE, COLDS TAKE "CASCARETS"**

No Headache, Sour Stomach, Bad Cold or Constipation by morning

Get a 10-cent box now.  
Parrot Tongue, Bad Colds, Indigestion, Sallow Skin, and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which causes and ferments the garbage and results in that horrible and nauseating. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fogs, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomachs, liver and bowels regulated, and never have a miserable moment. Don't forget the children—their little insides need a good, gentle cleansing too.

In the general movement in India to abandon centuries-old custom of hoarding gold, an Arab recently converted his savings into \$500,000 worth of government securities.

**That Stomach of Yours!**

**Mrs. E. Eversen**  
Quebec, Ont.—"I can highly recommend Dr. Eversen's medicine because it has been used in my family have always proved very beneficial. I have taken the Golden Medical Discovery for indigestion and stomach distress and it has given me wonderful relief. It is also a fine tonic and blood purifier."—Mrs. E. Eversen, 71 Pittsboro St.

Thousands in every Province have testified that this Discovery gave them renewed health.  
All druggists, either fluid or tablets.  
Send 10c to Dr. Eversen's Laboratory in Bridgeburg, Ont., for a trial pkg. of tablets.

**Turken is a Rare Bird**  
Develops Cross Between a Turkey and a Rhode Island Hen  
A new Canadian bird, the "turken," has made its appearance. It is a cross between a turkey and a Rhode Island hen, and was first brought to public attention at the Edmonton poultry show. George Spurgeon, who raised it, claims that it will affect a revolution in the poultry business, as it combines the best features of hen and turkey. It has a hen body and a turkey head.

**Joint Soreness Subdued, Swellings Quickly Reduced**

Wonderful Results From Rubbing the Sore Parts With

**NERVINE**

"My testimony must convince any one that 'Nervine' is a splendid preparation to use on swollen joints. Rheumatism left me badly crippled," writes Amos R. Peirce, from Kingston. I went to McRae's Drug Store and they recommended Nervine, which restored me completely."  
For Rheumatic pains, Lumbago, Sciatica, you will get lasting satisfaction from a 5c bottle of Nervine. Sold everywhere.

**Profit in Sugar Beets**

The average acre income from sugar beets in the Taber Irrigation District in 1926 was \$71.58, or three times greater than that of wheat, at \$25.01 an acre. According to the secretary-manager of the district, sugar beets are coming to take their place as the leading cash crop of the district.

**A Power of Its Own.**—Dr. Thomas' Edecrine Oil has a subtle power of its own. All who have used it have this and keep it by them as the most valuable liniment available. Its uses are numerous and for many years it has been prized as the leading liniment for man and beast.

**1524 An Attractive New Dress**

Grace and charm are admirably combined in the smart dress shown here. The front and back are in one piece and a flared tunic may be added as in View A. Alterable lace is used for the deep vestee and frills finishing the long pointed sleeves. A crushed belt fastens with a front-facing buckle and there is a chic tie collar. No. 1524 is in sizes 36, 38, 40 and 42 inches bust. View A size 38 bust requires 4 1/2 yards 39-inch material, or 5 1/2 yards 61-inch. View B requires 3 1/2 yards 39-inch material. 5 1/2 yards 61-inch lace is required for vestee and sleeve trims. Price 20 cents the pattern.

Every woman's desire is to achieve that smart, different appearance which draws favorable comment from the observing public. The designs illustrated in our new Fashion Book are originated in the heart of the creative and will help you to acquire that much desired air of individuality. Price of the book 10 cents the copy.

**Must Be Good Dodger**

Pigmy of New Guinea Undergo Severe Test for Permission to Marry

If you were a pigmy and lived in New Guinea, you would have kinky red hair and a complexion resembling milk chocolate. This reports Professor Stirling of Berkeley, Calif., who arrived today after investigating the pigmies and their country for the Dutch government and the Smithsonian Institute.

The professor says it is awfully difficult to get married in the pigmy country because the would-be bridegroom has to stand in a clearing and be shot at by other standing youths with bows and arrows. One is allowed to dodge and if one survives, the professor continues, one marries the darling of one's heart and is permitted the privilege of cutting off her index finger at the first joint.

This charming pigmy ceremony corresponds to the less interesting marriage ring arrangement here.

**Over Sixty Years Old and Still Agile and Alert**

Alberta Lady Very Enthusiastic About Dodd's Kidney Pills

**Mrs. M. Griffin Completely Relieved of After Effects of Influenza.**  
Lake Thelma, Alberta (Special).—The following remarkable testimony is from Mrs. M. Griffin, well-known and highly respected resident of this place. She writes:—"In the Fall of 1919 I was sick until January, 1919, when I got better. I used to have awful pains in my back; so bad at times, it would draw me down. I could not walk fast without crying out with pain. I tried everything. I read about Dodd's Kidney Pills and bought three boxes. By the time I had used the second box I could run across the street to get the car. I would not be without them, they are worth their weight in gold. I am 63 years old, and could run a foot race with any young fellow."

This wonderful remedy—Dodd's Kidney Pills can be obtained at all druggists, or 'The Dodd's Medicine Co., Ltd., Toronto, 2, Ont.

**Money Production in Alberta**

Money production in Alberta is increasing, the 1926 output being fifty per cent. greater than the year before, \$26,000 in value, as compared with \$23,000. One man in the Lethbridge district produced nearly 50 tons, nearly 100 tons.

**Heart Palpitation Dizzy, Sinking Spells**

**Mrs. M. A. Gagnon, Donville, Alta., writes:**—"Some time ago I was very nervous, could not sleep at night, often had dizzy, sinking spells and palpitation of the heart, and was so run down I could not do my housework, but just leave everything and sit down."

I spent a lot of money using medicine from the doctor, but it did not do me any good.

At last a friend told me to use and after using a couple of boxes I was not the same woman. I began to feel so much better, and after a few boxes I was in perfect health.

I always recommended them to all those I know who are suffering from heart trouble."

**MAKING THE WORLD CHRISTIAN**

Golden Text: Go ye therefore, and make disciples of all the nations. Matthew 28:19. Lesson: Matthew 28:16-20; Acts 16:6-15. Devotional Reading: Isaiah 60:1-5.

**Explanations and Comments**

1. The Commission to Make the World Christian, Matthew 28:16-20. This interview of the disciples with their Risen Lord took place in Galilee, upon the mount where Jesus had appointed. When they saw him, they worshipped him, though some doubted. We cannot think that the disciples who had difficulty in accepting the stupendous fact of the resurrection of Christ were the eleven, for their doubts had been dispelled in Jerusalem. Jesus told them of his universal dominion—"All authority is given unto me in heaven and on earth"—and then gave them his commission to make his world-wide people a reality: "Go ye therefore and make disciples of all the nations." They were given a seemingly impossible task, but The Acts tells us that they carried it out. There we have the record of ever enlarging circles of evangelization, first in Jerusalem, next to a wider circle in Judea, then to a still wider circle in Syria, and finally to a circle that embraced the known world from the Imperial city of Rome. "Love never ceases: it abides: it is without end: as fixed and sure a law as that around a pebble cast into still water."

—Remember, fellow Christians, how wide was the horizon of Jesus. Our horizon widens from cradle to home, school, city, country and with some, perhaps, to the last man. But to Jesus the outside rim of the earth was the first horizon that he saw, and the last. When he was born, good things came unto a woman—the Jews: "Unto thee, O woman, are all nations," "throught the whole world," "to every creature"; "to the uttermost parts of the earth, are Christ's words: 'Go ye unto all the world' is his limitless command, his boundless expectation."—Mt. 10, Luke 24.

Canadian National Lecture Car

Good Results Achieved by C.N.R. in Spreading Helpful Information to Farming Communities

Encouraging results are being achieved by the lecture car which the Canadian National Railways, in conjunction with the Extension Service of the University of Saskatchewan, are operating in Saskatchewan, according to a report received by Dan M. Johnson, western manager of the agriculture department of the company. The car, which started out on January 17, had been visited by 1753 people up to February 12, in spite of the fact that at several points exceptionally cold or stormy weather was encountered. Of the total attendance 507 were children of school age, an interesting fact, as the majority of them took active part in the discussion which followed the various lectures.

Cereal varieties, tillage operations, fall cultivation, summer fallow, crop rotation, the importance of good seed, the use of mixed farming, bio-fertilization of the farmland were some of the subjects dealt with by those lecturing on agriculture and there were also talks on the relationship of livestock to agriculture with suggestions as to the type of livestock that will fit into a diversified plan of farming. In a number of instances it was found that farmers had come many miles to listen to the lectures and that when they were present the discussions were most active.

When a mother detects from the writhings and fretting of a child that he or she is suffering from colic, she can rely on a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their being expelled. No worms can long exist where these Powders are used.

## U. S. VESSELS SEIZE RUM SHIP ON THE HIGH SEAS

San Francisco.—That the Government has carried its war against liquor smugglers to the high seas without regard for the 12 mile limit in cases where the ships involved are known rum-runners, became apparent here as Federal officials discussed the seizure of the freighter *Federalship*, owned by the Consolidated Exporters, Inc., of Canada, 300 miles off San Francisco, with upwards of \$1,000,000 worth of Scotch whiskey aboard.

The seizure was conducted under orders from Lieutenant Frank Austin, aide to Captain F. G. Dodge, district coastguard commander.

W. H. Hamilton, collector of customs here, although disavowing any connection with the seizure, said he "suspected" it was made as the result of an understanding among the governments of Canada, the United States and Panama and also with the advice of United States Attorney General Sargent.

The *Federalship*, one of a fleet owned by the Consolidated Exporters Inc., which recently figured in smuggling investigations by both the Canadian and United States governments, was watched by coastguards since February 22, when, on sailing from Vancouver, B.C., she changed her registry from British to Panamanian. At the time she was reported heading for Tahiti.

The coastguard cutter *Algonquin* was sent to follow the *Federalship* and later the cutters *Calokiki*, *Shawnee* and *Saithi* were sent from here to aid.

## Department of Revenue

New Name Is Proposed For Department of Excise and Customs.

Ottawa.—A bill was introduced in the House of Commons by Hon. W. D. Euler, Minister of Customs, which will make certain changes in the organization of the department. The minister explained his department had three principal duties. One to collect customs, another excise, and the third income taxes. The bill provided that each of these divisions would be under the charge of a commissioner who would have practically the same power as a deputy minister. If this method, it would be possible to relieve the deputy minister of some of his duties.

Another provision of the bill changes the name of the department from that of Customs and Excise to that of the Department of National Revenue, or the Department of Revenue. This change was made, Mr. Euler said, not from any prejudice because the department under the present name had been under attack, but because it was thought the new name more properly describes its functions.

## Are Hostile to Soviets

Opposed by Majority of Russian People Says Kerenky.

New York.—Alexander F. Kerenky, who headed the revolutionary government established in Russia after overthrow of the Czar, arrived on the Olympic for the purpose of studying American principles of liberty. He also intends to write for American consumption on the present day Russian situation.

Kerenky thought 99 per cent. of the Russian people were hostile to the Soviet. He expressed the opinion, however, that more good had come out of the Soviet although it had "turned sour," than could ever have come out of the Czarist regime.

Attempted to Introduce Bill London.—An amusing incident occurred in the House of Commons when a group of anti-Russian Conservatives, desiring to break off relations with the Soviet, attempted to introduce a private bill to prevent British recognition of any Russian government including in anti-British propaganda.

### Build Three Cruisers

Washington.—The appropriation for three new cruisers by the naval bill by Congress over the recommendation of President Coolidge, received presidential assent when Mr. Coolidge signed the bill.

W. N. U. 1671

## Reindeer Investigation

Government Would Provide Food Supply for Natives of North Country

Ottawa.—A wireless message has been received by the Northwest Territories branch of the Interior Department from the Purvis brothers at Point Barrow, Alaska, reporting on the progress of their work on the reindeer investigation. These two Danish brothers are now on a 1,200 mile push across Alaska and the extreme North coast of Canada making an investigation into the possibility of moving reindeer from Alaska into Canadian territory to maintain the food supply for the natives. Game is in danger of extermination and the survival of the Eskimo is menaced.

The two Purvises want to take the North country last June and will not come out until the spring of 1923, when they will make their report to the Dominion Government on all phases of the reindeer question, including the commercial possibilities. It is expected that within a few weeks the little two-man expedition will be in the delta of the Mackenzie River. The men are trained naturalists and botanists and are sons of the governor of Greenland.

## Vancouver Men Chosen

Four Posted to Special R.C.A.F. Squadron for Hudson's Bay Survey

Vancouver.—Four Vancouver men have been posted to the special Royal Canadian Air Force squadron which is to fly into the Hudson's Bay country for a fifteen months' survey of ice conditions. It is announced.

Squadron Leader J. H. Tudhope, M.C., officer commanding the Vancouver unit, has been advised from Ottawa that Flying Officer A. Lewis, of Winnipeg, who came here recently as instructor for the training course this spring, and Pilot Officer A. J. Ashton, who had been adjutant of the Jericho Beach station for some time, have been posted to the special squadron.

Lewis and Ashton will remain at Camp Borden in Ontario until June, in training for the flight. Sgt. Perry, engine-fitter and Corp. Semple, carpenter-rigger, have also been ordered to the Hudson's Bay flight. Both have been at Jericho Beach for some years.

It is understood that eight machines will comprise the squadron, which will establish its base at Hudson's Bay and do regular patrols from June, 1927, until October, 1928. Twelve officers and 50 men will be employed.

## Britain Remains Neutral

Taking No Sides in Struggle at Shanghai Says Chamberlain

London.—Great Britain will continue to maintain an attitude of strict neutrality in the struggle between the contending Chinese forces, Sir Austen Chamberlain said in the House of Commons. Asked whether the United States is co-operating with British authorities in the defence of the international settlement at Shanghai, the secretary of foreign affairs said the United States was acting independently in defence of its own interests in China.

"There is no rivalry between the United States and ourselves," declared Sir Austen. "They act as an independent power and as they think proper."

Sir Joseph Hall asked whether this meant that the United States was unprepared to take action in the defence of Nationals of other countries.

"No, I have not said that," responded Sir Austen. "He added that he was not inclined to define the attitude of a foreign power in unconditional answers to such questions."

### Pilgrimage to Holy Land

Ottawa.—Preliminary steps have been taken to organize a Canadian pilgrimage to join with the fourth annual Anglo-Catholic pilgrimage to the Holy Land this summer. This will be the first time that Canadians will take part in the pilgrimage officially.

### Babe Ruth's Contract

New York.—Babe Ruth, home run king of baseball, came to an agreement with the New York Yankees under which he will receive a new, three year contract at an annual salary of \$70,000.

## PROPOSED TAX ON FURS FROM NORTH COUNTRY

Ottawa.—For the first time in 200 years a tax is to be placed upon furs from the Northwest Territories. Within a few days Hon. Charles Stewart, minister of the interior, will introduce a bill into the House of Commons to empower the Commissioner-in-Council of the Northwest Territories to impose a tax per pelt on furs.

At the present time about \$2,000, 000 worth of furs are taken from the territories each year by trading companies without revenue to the federal government. The proposed tax is designed to meet to some extent the cost of maintaining the administration of Canada's northland. It is pointed out that every province of Canada has some sort of tax upon furs taken within its boundaries. The tax is to be upon exports in order not to work any hardships upon the natives who depend upon skins for clothing.

## Oil Magnate Hard Hit

Edward L. Doherty Will Lose Millions As a Result of Court Decision

Washington.—Edward L. Doherty will lose \$21,886,928 as a result of the Supreme Court's decision of cancelling his leases of Elk Hills, California, oil reserve from the navy department.

Of this amount \$9,900,000 in cash is held by the receivers, who have operated the reserve during the litigation. It represents the value of the oil he received as a royalty payment for working the deposits of the reserve.

The balance represents expenditure made by the Doherty interests in mining the oil and constructing fuel tanks at Pearl Harbor, Hawaii, and the oil stored there.

### Will Not Land in Nicaragua

London.—Sir Austen Chamberlain, foreign secretary, reiterated in the House of Commons that no forces would be landed in Nicaragua by the cruiser *Colombo*, which has proceeded to Soriano, where conditions are disturbed by civil war. He added that the *Colombo* would not remain at Soriano very long unless it should be needed as a refuge for British subjects.

### Dominions Are Invited

Sydney, N.S.W.—An invitation has been extended to all the British Dominions to be represented at the opening of the parliament houses at Canberra, by the Duke of York on May 5. Premier Bruce has expressed the hope that Canada will send a minister.

## Mecca For Champions

Quebec City has become the gathering place not only for winter tourists but for champions in every line of winter sports. The Canadian indoor speed skating championship races held there recently attracted over 25 prominent speed skaters from many parts of Canada and the United States.

The above photograph was taken at the Chateau Frontenac and shows at the right, Lella Brooks of Toronto, holder of practically all Canadian women's speed records and many world's records. At the left is Isabel McCullough, another prominent Toronto speed skater. Between these two young ladies is another champion, a champion of the northern trails and none other than Mountie, the lead dog of the Chateau Frontenac dog team. Mountie has a long record of service with the Royal Canadian Mounted Police in the north, and always wins the hearts of the guests at the Chateau Frontenac.

## Proposal of Western Livestock Men Opposed

Eastern Producers Against Changes Advocated at Regina Conference

Ottawa.—Eastern livestock producers and representatives of the livestock exchanges in this part of the country who met the minister of agriculture west dead against the proposal of the Regina conference of Western livestock men respecting contemplated amendments this season to the Livestock and Livestock Products Act.

At the Regina conference the main resolution adopted was that the actual administration of stockyards be taken out of the hands of the exchanges and placed directly under the Department of Agriculture. They favored ed marketing on the cooperative plan.

When this proposal was submitted to the conference of Eastern interests here they all objected to any such provision. They admitted the development of cooperative marketing and agreed to adequate provision for it being made in the Act, under department supervision, but they objected to the exchange being put out of business.

The Act is to be entirely revised this season and, on a variety of things, the opinion of the livestock interests is sought but marketing is the most important issue.

The Government will have to decide the matter but, meanwhile, the conference disclosed that the Western view is utterly dissimilar from that of the East.

## Involve Questions

of International Law

Run-Running Case Taken to Canadian Legation at Washington

Washington.—Run-running cases affecting Canadian citizens and ships of Canadian registry are beginning to find their way to the new Canadian legation here.

Formerly they were dealt with by the British Embassy, which will dispose of most of the cases begun before the Canadian legation opened. Others are being turned over to Vincent Massey, the Canadian minister and his staff at discretion of the Department of External Affairs at Ottawa.

Some of the cases involve difficult questions of international law and will form one of the most delicate tasks confronting the Canadian legation.

### May Extend Term of Office

Ottawa.—Major General J. H. MacBrien, chief of general staff department of National Defence, whose resignation was to take effect on May 1, will probably continue in office until June 1, as the result of the request of the Minister of National Defence.

## APPROVE BUDGET BY A MAJORITY OF 23 VOTES

Ottawa.—The first budget of Canada's sixteenth Parliament has been carried in the house by a majority of twenty-three votes. Approval of the budget on division by a vote of 111 to 88 produced none of the elements of surprise; while defeat of the Coote amendment by 182 to 21 was likewise expected. The debate, however, was one of the shortest on record.

Liberals and Liberal Progressives lined up solidly in support of the budget on the division, while, with three exceptions, Conservatives, Progressives and members of other groups voted in opposition. The exceptions were: H. B. Adeddeh, Labor, Calgary East; L. H. Jeffery, U.F.A., Lethbridge, and A. W. Neill, Independent, Comox-Alberni. All three voted for the budget. Henri Bourassa, Independent, Lethbridge, voted against it.

As indicated early in the discussion the Coote amendment found its supporters in the U.F.A., Progressive and Labor groups.

The amendment was moved by G. G. Coote, U.F.A., Macleod, and seconded by A. W. Heaps, Labor, Winnipeg North, following a conference of the members of the three groups who supported it.

## Diamond Rush in South Africa

Gems Worth Quarter of a Million Found on Farm

Johannesburg.—Diamonds estimated to be worth £50,000 (about \$250,000) are reported to have been found in a hole on the Graafstroom farm, reputed to contain the most valuable diamond deposits in the world. The hole, 25 feet deep, is said to show no signs of having been cleared of its diamond deposit.

The Graafstroom farm in the Transvaal was proclaimed open to public staking in 1912, but there was a premature rush to stake claims before the signal was given. The stakes set out by eager diggers were pulled up and the claims nullified, and the authorities are considering the advisability of arranging another rush.

## Raise Pool Payment

A New Rate of Initial Payments to be Made by Manitoba Pool

Winnipeg.—A new rate of initial payments to be made by the Manitoba Wheat Producers, Ltd., on all pool grain was announced here by R. M. Mahoney, manager. The revised rates became effective on March 9. The schedule follows:

Durums and durum mixtures, where durum predominates, 20 cents; all other grades of wheat, 15 cents; all grades of oats, eight cents; all grades of barley, six cents; rye, 12 cents; flax, 20 cents.

The increase affects both street and carload lots.

### Coal Rates Case

Ottawa.—That the coal rate case is within the jurisdiction of the railway commission, and no direction will be given is the decision of the privy council of Canada on the request of Alberta and Saskatchewan for immediate disposal of the case by the railway board. Chief Commissioner McKeown made this announcement at the freight rates session of the railway commission.

### Wants New Saar Head

Paris.—The Petit Parisien understands that Canada is anxious to provide a successor to Major O. W. Stephens, Montreal, in the presidency of the League of Nations commission governing the Saar. The newspaper believes that doubtless "Sir Austen Chamberlain, British foreign secretary," would support Ottawa's choice of a nominee.

### Will Meet at Coast

Vancouver.—Final arrangements have been completed here for the holding of the sixth all-Canadian conference on child welfare in this city May 23, 24 and 25 in Victoria, May 25, at a meeting between Miss Charlotte Whitton, Ottawa, secretary of the Canadian Council of Child Welfare, and a local committee.

## Selection of Dairy Cattle Breeds Influenced by Show

A good typical Anglaise sire

Putting on the finishing touch.

Many a man who is undecided as  
to the breed of dairy cattle that he  
will select has been influenced in  
making his decision by the animals  
of a particular breed that he has  
seen in public.

The individual breeder secures a  
great deal of advertising as the re-  
sult of exhibiting at fairs, or in of-  
fering good animals at public sales.  
It gives people a chance to see and  
know the kind of stock that a man  
is breeding and paves the way for  
future business.

It is essential that special care and  
attention be given dairy animals far  
in advance of the time that they are  
to be exhibited or sold. Exhibiting  
or selling animals publicly in their  
every day clothes is poor advertising  
and puts them at a disadvantage  
when the competition is keen. It  
takes several weeks to put a dairy  
animal in good show condition and  
what applies to fitting for show ap-  
plies as well to fitting for sale.

It is important that the dairy ani-  
mal to be exhibited or sold be in  
good flesh. A good covering of flesh  
adds to size, increases smoothness  
and indicates that the animal is  
thrifty and in good health. Dairy  
animals being fitted need extra feed.  
Stabling and blanketing are great  
aids in putting the hair and hide in  
condition. By stabling in summer,  
the animal is protected from the hot  
sun which makes the hide harsh and  
stiff to the touch. A roomy box stall  
that is kept clean and well bedded

provides desirable quarters. Contin-  
uous blanketing helps keep the ani-  
mal clean, sweats the hide, thus im-  
proving its handling qualities and  
makes the hair lay to the body. The  
blanket need not be expensive but  
it must be tied on securely.

Every dairy animal that is to be  
exhibited should have the hair  
clipped from the entire body about  
three weeks previous to the date of  
the show or sale. This will get rid  
of the old hair and allow a new,  
even growth to develop which will  
greatly improve the appearance and  
increase the selling value of the  
animal.

A point often overlooked in the  
preparation of a dairy animal for  
show or sale is that of training to  
lead and stand properly. An un-  
trained animal cannot display its  
good points to advantage if it com-  
bats the efforts of the attendant to  
exhibit it properly. A little time  
spent each day in training to hand-  
properly will save effort and em-  
barassment at the show or sale and  
increase the financial return.

While in the show or sale ring, the  
man in charge of an animal should  
have one main thought in mind,  
namely that of showing the animal  
to advantage. By this is meant that  
when it stands its feet are properly  
placed, back straight and head alert.  
Any movement on the part of the  
attendant or animal should be as  
graceful as possible. Until the rib-  
bons are placed, the auctioneer's  
hammer falls, take no chances.

## Air Mail Facilities

## Offered to Canada

U.S. Plan Would Save Day on Coast to Coast Letters

Air mail routes in the United States have been made available to Canadians. For an extra ten cents per half ounce letters from Canada will be carried by the coast to coast air mails operated under contract with the United States government.

Letters destined to British Columbia are carried to Elko, Nevada, and from there trans-shipped to Vancouver or Victoria. A net saving in time of at least a day is ensured. Letters to United States points on the Pacific coast are delivered at least two days earlier on the average.

The announcement of the United States post office department points out that the extra ten cents for air mail routes must be prepaid from Canada in United States postage stamps.

Fine for catarrh when melted in a spoon or snuffed up the nose and vapors inhaled.

## Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks VapoRub reaches immediately inflamed, congested air passages. This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly.

Splendid for sore throat, tonsillitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever.

Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

**VICKS VAPORUB**  
Over 21 Million Jars Used Yearly

majestic boulevard which skirts the shore by a dense hedge of semi-tropical bush, met her, with his own groom, at his gate. She stepped lightly from his hand to the ground and tossed her bride to the man. "Just an hour, please," she commanded.

Kentworth immediately expressed dismay. "You haven't braved the mist to give me but an hour! It will take me quite that long to get accustomed to the vision of you among my things."

"Just an hour, Roddy," she insisted, nodding to the groom who accepted her rider as final and led the horse away. "You see I've made plans for the evening, and I mustn't interfere with them. I shall have to get back to Amoto and change."

It was the first time Joanna had granted Kentworth a tete a tete hour "in the midst of his things," as he expressed it. She had always made a pretense of "being afraid" of him, which, he customarily retorted, was flattering but untrue. He assured her, at such times, that she was one who wouldn't be afraid of anybody. He had desperately proposed Lady Weymouth as a chaperone, but with no success. Joanna asserted that she'd never resort to a chaperone—"in these days." He was, then, puzzled by the sudden whim which brought her, uninvited, and strangely vibrant. He knew her well enough to sense a purpose. Joanna, he had discovered long ago, usually concealed a purpose behind whatever was unexpected of her. He had made a profession, almost, of discovering those hidden purposes and fathoming them. "Confess to me," she challenged him when she had settled in a great chair before the log fire which baffled the cool dampness of the increasing mist outside. "You are wondering why I came so unexpectedly."

## Constructing Speed Boat

Frenchman Will Attempt to Cross Atlantic in 48 Hours

An attempt to cross the Atlantic ocean in 48 hours will be made in a motorboat now being constructed by M. Bugatti, the French automobile manufacturer.

The boat is made of steel construction of the submarine and will have eight motors. It is a chaser type. It is 35 meters long, is expected to make 140 miles an hour in a calm sea and 100 miles an hour on an average sea. The boat will make a trial trip soon on the Seine.

## THE NURSING MOTHER

Often Finds Herself Weak and Feeling Worn-Out

The nursing mother more than any other woman needs rich blood and plenty of it. The demands upon her health are many and severe. Household duties and the care of her children exact heavy toll, while hurried meals, broken rest and indoor living tend to weaken her. No wonder she is often indisposed through weakness, headaches, backaches and nervousness. In this condition the blood will always be found weak and watery, and relief will come only through enriching the blood. For this purpose Dr. Williams' Pink Pills is the best blood-making tonic known. Through their use many weak, ailing wives and mothers have found new health and strength. As an example of this Mrs. Sarah Curtis, Filtontown, N.H., says:—"While nursing my baby I became run-down, very weak and nervous. My head ached all the time and I was not able to do my work. I had often read of Dr. Williams' Pink Pills and began using them, and what a blessing they proved. Before I had used a half dozen boxes I felt like a new person, and by their continued use for a while I was entirely restored to my former health and strength. I take pleasure in recommending Dr. Williams' Pink Pills to everyone suffering as I did."

"You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The patient usually has more confidence in the physician than the physician has in himself.

Some men who live by their wits have to get along on very small capital.

Strange, Romantic Love Adventures of the Gapper you know!

## CHAPTER XXIX—Continued

It was not wistfully said, nor in reminiscent tones. She was standing apart from him, and spoke as if voicing a casual thought. A frown came into his forehead.

"Those are not good memories to have," he said. "This sort of thing gives them a sting."

She looked at him in open wonderment. If this wonderment was a mask, she concealed it skillfully.

"No memory has a sting, John," she returned. "That is, if they are the kind of memories that are worth while treasuring. The more we miss things we once had, the more precious is the recollection of them. I've put a little bit of that house we used to play into every one of these things I've built here. Funny, isn't it?"

"The house, if I remember, was to last a lifetime. This is to be the humor of a night. I can't understand what part of one could be built into the other."

"Love, John! Into the other you put what was your love—your idea of it. Into these things here I've put that love of yours, my dear—taken it from the home you would have built, and put it into this. It was you, you know, who said, just now, that the other was for a lifetime, and that this will be desolate and crumbled in the morning. At least I expect nothing more—of this."

He was silent. She left him for a moment to give an order to the Ametic gardeners who supervised the sorting of the blossoms which were to shed their perfumes for a night and then wither. When she went back to him John said, with the blunt directness that echoed a determined resolve:

"There's something I must say to you, Jo. It's been trying to come out for days, now, and I know you've been expecting it. I've been rather a coward—"

"Be a coward, John!"

It was said, quietly, softly, but there was something deadly in the manner of it. He flushed, but went stubbornly on:

"Yes, rather. It's to be about

Yvonne, you know—Yvonne and me." Again that quiet, soft interruption. "Tell me, John: are you going to marry me?"

This time she was looking at him. He could not evade those brown eyes that were darkened by the purple haze in the air, and whose customary fire seemed to have cooled into a lazy smolder. While he shifted nervously, she drove in her challenge:

Joanna crumpled up onto the lawn and lay, face buried in the grass, her shoulders shuddering convulsively.

"Don't be a coward toward, John. I love you. I love you as a girl seldom knows how to love. The marvel of my own money, and its mystery, and the threat that is hidden in it somewhere, has never appalled me so much as your success and the grandeur of the things you are succeeding in doing. That has made my love more of a woman's than a girl's; somehow so it will stand him. Even your cowardice. Now you're being brave again, so go all the way in now, please. Never mind the steps in between. You've a fortune of your own in sight, so my money needs count no more. Shall you marry me?"

"No, Jo. You see Yvonne has

She stopped him instantly. "That's splendid!" It was quite as if she were

complimenting him upon some new triumph within his profession. She reached over and patted his hand and then pressed it for a moment in her own. "That's splendid," she repeated. "Now you're at least a coward no longer. You see I've got a funny mind. I think I like to know things. It helps me make plans."

"But, Jo—there's much more to say. It isn't just like that—Shall I marry you? No. There's more."

"There really isn't," she declared. "You explained quite fully, without words, when you came down from London that matters were quite the same as ever. You'd got on but I hadn't. I was just the same jazz girl with the short skirts and a lot of lace and a good time. Not the kind of a wife for the great creator of a beautiful thing for future generations to marvel at. Why tell me all over again?"

He knew she was mocking him, and he realized that she was being a thousand things hung on his lips in her calm serenity. He smiled and jumbled. She reached to him again and patted his sleeve. "We'll have a drink over it all, someday," she said. "Meanwhile I shall stop drinking all of my cocktails to you. Now go along into the house. You will find Yvonne in the reading room. I'm going to have one of Teddy Dorminster's horses saddled and ride over for tea with Roddy Kentworth at his house."

She gave him her hand and smiled up at him. "You will not be seeing much of me now until the fete," she said. "It is so near and I have so much to do. But I shall want you to dance with me that night. By then we shall have both forgot today."

She watched him until he disappeared beyond some shrubbery that cut off the view of the house. Then she turned toward the stables, but he had not gone far when she stopped. She stood for a moment looking at the riding toes into which she proposed to change in the stable dressing room. The man gazed dubiously down the Cap Martin slope and estimated the thickness of blanket of violet haze.

"It'll be coming up fast, Made-

moiselle, after a while," he said; "It's troublesome to ride through when it gets too heavy. I shouldn't advise Mademoiselle to go too far."

"Just along the sea road, to Mr. Kentworth's," she informed him. "The lights there are never lost."

The groom would have liked to voice more insistent caution, but his mistress was abrupt with him. There were times when the servants at Villa Ameto were afraid of their Mademoiselle Joanna. The groom shook his head but decided not to venture a further protest. He reflected that, after all, she was a good horsewoman and that a horse usually is dependable.

Kentworth, whose villa nestled at the base of the hill, shut off from the

CHAPTER XXX  
Joanna's Decision

A stable groom fumbled with his cap when Joanna had chosen her horse and sent to the house for the riding toes into which she proposed to change in the stable dressing room. The man gazed dubiously down the Cap Martin slope and estimated the thickness of blanket of violet haze.

"It'll be coming up fast, Made-

moiselle, after a while," he said; "It's troublesome to ride through when it gets too heavy. I shouldn't advise Mademoiselle to go too far."

"Just along the sea road, to Mr. Kentworth's," she informed him. "The lights there are never lost."

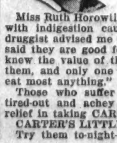

The groom would have liked to voice more insistent caution, but his mistress was abrupt with him. There were times when the servants at Villa Ameto were afraid of their Mademoiselle Joanna. The groom shook his head but decided not to venture a further protest. He reflected that, after all, she was a good horsewoman and that a horse usually is dependable.

Kentworth, whose villa nestled at the base of the hill, shut off from the

## Druggist

## Gave Her Advice

Miss Ruth Horowitz, Bronx, N. Y., writes: "Having been troubled with indigestion caused by constipation for several months, my druggist advised me to try CARTER'S LITTLE LIVER PILLS. He said they are good for a hundred different ailments, if people only know the value of them. I can safely say that since I am taking them, and only one each night, I feel like myself again and can eat most anything. Those who suffer from sick headache, indigestion, biliousness, tired-out and achesy feeling, when due to constipation, will find relief in taking CARTER'S LITTLE LIVER PILLS. CARTER'S LITTLE LIVER PILLS in red packages, 25c. and 75c. Try them to-night—Tomorrow refreshed—All druggists."

## Gargle

# ASPIRIN

Dissolve two "BAYER TABLETS OF ASPIRIN" in four tablespoonfuls of water and gargle thoroughly.

Swallow some of the solution. Don't rinse the mouth. Repeat gargle every two hours if necessary.

This is an effective gargle proved safe by millions and prescribed by physicians.

Safe Accept only "Bayer" package. Look for the "Bayer Cross."

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoclonal-acetic acid of Salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to avoid the public opinion, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

GOOD NEWS "Without money and without price"

"THE KINGDOM OF HEAVEN AT HAND"

Thousands of Churches are without ministers not  
withstanding the great need of preaching the Gospel

"There is a shelter in the land—be having  
the Word of God's Jesus will"

The people need the truth as never before. Will you do your part? The International Bible  
Students Association will supply Ministers of the Gospel free of charge on application.  
Conditions: Open the church buildings; admit all free, take no collections. ADDRESS:  
G. A. Ware, 6 Conwell Block, Edmonton

or I.B.S.A. 270 Dundas St. W., Toronto, Ont.

### Stony Plain and District.

Inga Councillors held their  
inaugural meeting in Stony  
Plain on Monday next, at  
2 p.m.

Mr M. McKinlay attended  
the meeting in Calgary on  
Saturday last of the Provin-  
cial Rifle Ass'n, as a delegate  
from the local rifle club.

Coming sales: H T Walton  
on March 23; Gus Mintz, on  
March 25.

Mr Karl Strass' new resi-  
dence on the Meridian road is  
nearing completion, and will  
shortly be occupied by him-  
self and wife. Mr Alt and  
family will occupy Mr Strass'  
present residence when this is  
vacated.

The dearth of town houses  
in which to live is again not-  
iceable. Several families on  
the outside are aiming to live  
in Stony, but the accommo-  
dation is not now available.

Mr T Graden, on Tuesday,  
sold a bunch of his Shorthorn  
fat stock to Mr August Mer-  
edith. Mr A J Shanl, the same  
day, sold about 20 head of  
his purebred Aberdeen Angus  
steers to the same buyer.  
These animals brought an ex-  
ceptionally high price, as prices  
go now.

A party of charming young  
people foregathered on the  
evening of March 3, at the  
home of Mr. and Mrs Gus  
Gitzel, to give a surprise en-  
tertainment to their daughter  
Miss Laura, a popular young  
lady who is leaving the dis-  
trict in a short time. Games  
of various kinds were indulg-  
ed in, and music and songs  
helped pass a very pleasant  
evening.

A very pleasant evening  
was spent at the Emmanuel  
church, Rosenthal, on Friday  
last, when the slide lecture  
"The Passion of Christ" was  
given by the pastor, Rev G  
Poetzsch.

On Tuesday, March 1st,  
at the residence of the bride's  
parents, east of town, by the  
Rev G Poetzsch (pastor of  
St Matthew Lutheran church,  
Spruce Grove), Miss Mary  
Ducholke (daughter of Mr  
and Mrs John Ducholke) was  
united in marriage to Mr  
Alfred John Schum (son of  
Mr and Mrs John Schum of  
Spruce Grove). The happy  
couple were the recipients of  
numerous and costly wedding  
presents. They have gone to  
Banff, on their honeymoon.

In Edmonton, on Monday,  
March 7th, Miss Florence  
Wheeler (daughter of Mr and  
Mrs Fred Wheeler, Graninia)  
was united in marriage to Mr  
Victor Willet, son of Mr and  
Mrs E J Willet, of Sand Hills  
district.

Visitors to Stony by team  
are again warned not to leave  
parcels in their sleighs un-  
guarded. This is the best  
method to toil the sneak  
thieves.

### Card of Thanks.

To the Electors of Division 1,  
Municipality of Inga:

My hearty thanks and ap-  
preciation are due my friends  
and supporters in Div. 1, Inga  
M.D., for the splendid work  
done on my behalf at the elec-  
tion recently held. My earnest  
desire will be to be worthy  
of the confidence reposed in  
me. Yours,  
MURD MCKINLAY.

### Spruce Grove News

On Sunday evening last two  
lantern slide lectures "The  
Life of Christ" and "The Pas-  
sion of Christ" were shown at  
St Matthew Lutheran church,  
Spruce Grove. The lectures  
were given by the pastor, Rev  
G Poetzsch, and were greatly  
appreciated by the large audi-  
ence present.

Mr and Mrs Wm Kelly of  
Stony Plain were Sunday vis-  
itors at the home of Mr Robt.  
Beuerlein.

Services were held in St  
Joseph's Church last Sunday  
morning by Rev C Keenan.

Mr J M Kullander and Mr  
and Mrs A Anderson are  
moving this week to the farm  
at Holborn formerly occupied  
by Mr M Aronson.

One outcome of the recent  
contest for Councillors for  
Spruce Grove municipality is  
the threatened suit, which a  
defeated candidate is said to  
be instituting against one of  
the speakers at a pre election  
meeting.

### Wheat Pool News Notes.

The following salient features  
were taken from a circular issued  
by C. M. Hall, manager of the Al-  
berta Pool Elevators, to his agents:  
That the Grain Trade is unfair  
and inaccurate in its criticisms  
of the wheat pool.

That the Grain Trade is com-  
pelling non-pool farmers to pay  
for the expensive campaign being  
conducted against the Pool.

The non pool farmers are con-  
tributing to the Grain Trade in  
spreads on street grain nearly  
three times the amount that wheat  
pool farmers are required to pay.  
That on street wheat non-  
pool farmers, according to a recent  
buying list, pay the grain trade an  
average spread of from 13 to 14  
cents a bushel.

That the grain trade's lowest  
margin on street wheat, according  
to a recent buying list, is between  
8 and 9 cents a bushel.

### Here and There

Passengers aboard the Canadian  
Pacific Empress of Scotland were  
not deprived of visiting China on  
the present round-the-world cruise  
of this ship, on account of the re-  
cent trouble in that country. Word  
from the cruise director is to the  
effect that the passengers received  
a warm welcome at Shanghai  
and that the Chinese were most  
friendly.

A new Canadian bird, the "tur-  
ken", has made its appearance. It  
is a cross between a turkey and a  
Rhode Island hen, and was first  
brought to public attention at the  
Edmonton poultry show. George  
Spurgeon, who raised it, claims that  
it will effect a revolution in the  
poultry business, as it combines the  
best features of the hen and the  
turkey. It has a hen body and a  
turkey head.

His Majesty King George and  
H.R.H. the Prince of Wales have  
notified the British section of the  
World's Poultry Congress that they  
intend to exhibit poultry at the  
congress exhibition to be held in  
Ottawa from July 27 to August 4  
next. There is also a possibility  
of the Queen of the Netherlands  
and King Alfonso of Spain sending  
exhibits, in which case the Canadian  
capital will be the first city in  
the world privileged to house the  
exhibits of several royal flocks.

The Indians of the three prairie  
provinces last season produced ap-  
proximately 1,000,000 bushels of  
wheat, of which about half, or 480,  
000 bushels was wheat, according  
to a recent government report.  
There are about 35,000 Indians in  
the area in question and the por-  
tions reserved for their use include  
some of the most fertile land of  
the west. They had 97,000 acres of  
land under cultivation in 1926 and  
they own about 25,000 head of cattle  
and 35,000 horses of a good type.

Warren Cordingley of Ashton, Ida-  
ho, won the six-mile dog race from  
Calgary to Banff held recently in  
connection with the Banff annual  
Winter Carnival. The race was one  
of the hardest fought in the his-  
tory of these events. Cordingley's  
lead dog broke down and was car-  
ried to the finish line on the sled.  
The Mills' team, of Banff, picked to  
win the race, was attacked by town  
dogs near Calgary. Both driver  
and dogs were badly bitten but  
stuck to the trail and finished.

Applications for permits to de-  
velop hydro power in Western On-  
tario and Northern Manitoba are on  
a scale that represents an ultimate  
volume of 5,000,000 horse-power.  
indicating the industrial growth  
that the territory is achieving. These  
range all the way from the Lake  
of the Woods country to the basin  
of the Nelson River, and relate to  
gulp and paper mills, mining plants,  
civic hydro promotion and transpor-  
tation projects.

During 1927 more than 6,000  
Hungarians will emigrate to Can-  
ada, according to Albert de Hay-  
den, Hungarian Consul-General of  
Canada, who is here on business in  
connection with the 6,000 country-  
men who came to Canada last year.  
"My investigations have shown," he  
said, "that on the average the new-  
ly arrived Hungarians are doing  
fairly well despite the fact that this  
is a dull time of the year in farm-  
ing and to a lesser extent in in-  
dustrial plants."

"If they can pitch ball as well  
as they can snowball, they would  
be some team; they sure can send  
some stingers," was the comment  
of one of the Calgary Scouts as he  
dug himself out of a concentrated  
volley of snowballs that the West-  
minster Scouts had placed on var-  
ious parts of his body and face, when  
the Calgary boys tried to enfilade  
the choristers in a snow battle staged  
near the C.P.R. station. It was  
the culmination of a program ar-  
ranged for the Scout choristers dur-  
ing the visit to Calgary recently of  
the Westminster Boys' Choir.
